

PICKLE

Ingredients

Can you add green thyme

Can you add some garlic cloves

Can you add some dried chickpeas

5 grams lemon salt

15 grams of sugar

70 grams of rock salt

per liter of water

saline solution:

Directions

Pickled cucumber: We cut each piece of cucumber with a small wound, and get rid of the beaten places on the cucumber pieces, then we lay the cucumbers in clean and sterilized jars in a compact and longitudinal manner, and then we add 5 cloves of garlic to each jar. Pickled turnip: We cut each turnip into thick pieces in a circular motion, then we put them in clean, sterilized jars, and between each layer of turnip we put two pieces of beetroot, and then we add a little dried chickpeas to each jar. Pickled Capsicum: We cut a small cut in each piece of capsicum, then we put them in clean, sterilized jars. Sauerkraut: We cut the head of cabbage into medium-sized and thick pieces, then put them in clean, sterilized jars.
To prepare the brine: we put in a bowl of water, salt, sugar, lemon salt, then we stir the ingredients until they dissolve, then we pour water for each jar, then close the jar well, and put them in a warm place for 12 days.
